All the students are required to attend the worship of God daily, and to recite a Bible lesson weekly. Students of the Classical and Scientific Courses will study select portions of the Scriptures. In addition to the usual text books on Moral Philosophy and the Evidences of Natural and Revealed Religion, the Seniors study the Confession of Faith, using Hodge's Exposition as a text book. This course will be especially valuable to those whose professional studies will not lead them to a careful examination of the facts and principles of the Word of God. A course of reading adapted to promote vital godliness is recommended to all the students. The President will give frequent lectures on manners, morals and religious duties, intended to train the students to the life of Christian ladies and gentlemen. The degree of B. S. is conferred on students who complete and pass satisfactory examinations in the Scientific Course.

---

## *HONORS.*

In relation to the distribution of College Honors, the following principles have been adopted:

I. All the recitations and examinations, as well as the attendance, are graded from 0 to 10, 10 indicating as high a degree of excellence as is ordinarily attainable. The attendance grade is intended to show the actual attendance of a student without respect to causes of absence. The Grand Average is the average of the attendance grade and of all the recitation and examination grades for the year. The rank of each student in his class is marked on the Annual Register. The Salutatorian and Valedictorian are selected by the graduating class from

the members grading 9.75, or higher, on the Grand Average; the former from the Scientifics and the latter from the Classicals.

II. A course of study, additional to the ordinary or degree course, known as the Honor Course, has been established.

III. The Honor Course includes six departments, in any one or more of which a student may graduate with Honors, first or second' according to the attainments made. These honors are in no sense competitive. As many as complete the prescribed course receive them. The departments of the Honor Course are as follows:

1. The Classics, including Latin, Greek, Hebrew, French and German. 2. Mathematics. 3. Natural Science. 4. Philosophy, including Metaphysics, Logic, Moral Philosophy, Political Economy, and the Constitution of the United States. 5. The English Language, including History. 6. The Bible.

In general, not exceeding one half as much matter in addition to the amount required in the ordinary course, in any of the above departments, must be mastered in order to a second Honor; and additional thereto, an amount equal to that required in the ordinary course, in order to a first Honor. No student who does not rank 9.75 in the subjects of the ordinary course will be admitted to an examination for Honors.

IV. Each Professor furnishes gratuitously to candidates for Honors in his department such assistance as they need. Those desiring regular recitations arrange for them with the Professors, or any other persons they may select, on such terms as may be mutually satisfactory.

V. Honor examinations will be held the first week of each vacation, Senior included, at which candidates for the degree of B. A. or B. S. may present themselves; and those passing in any subject of any department shall be credited with the same. In the case of every candidate, the result of all the examinations will determine the Honor attained.

VI. Candidates for the degree of M. A. may in like manner present themselves for examination in any of the departments named above, at any Honor examination, and those passing in any subject will be credited with the same. The result of all these examinations will determine the Honor attained on taking the M. A. degree.

VII. The result of all these examinations will be entered on the College Register, and publicly announced.

# ACADEMICAL DEPARTMENT.

Candidates for admission to this department will be examined in Geography; English Grammar, including orthography definitions, rules of syntax, and easy parsing; Arithmetic, particularly on fractions—common and decimal—proportion, percentage and its applications, square and cube root. As the class formerly known as the Junior Academical will be discontinued hereafter, applicants must pass thorough examinations in the above subjects, and particularly in Arithmetic. In preparing for this examination Ray's III Part Arithmetic and Bullion's or Pinneo's Common School Grammar should be used.

Those completing the English Course and passing its examinations will receive a Certificate of Attainments. Those preparing for teaching will have an opportunity of studying the Theory and Practice of Teaching.

Students of all courses in the Academical Department will be instructed in the principles of Single Entry Book Keeping, and in the use of business forms.

The exercises of this department are conducted in the College building. The students are subject to the same supervision and enjoy the same privileges as the College students. To secure the full advantages of either course the student should enter at the beginning of the College year and continue until its close. No student can be absent a term without great loss If unable to complete the course without interruption it is ordinarily much better to discontinue an entire year.

# NORMAL DEPARTMENT.

The regular courses of the College accomplish the ends of a Normal Course. Those pursuing the Scientific Course may study the THEORY AND PRACTICE OF TEACHING and SCIENCE OF EDUCATION instead of Analytical Geometry and Calculus. An opportunity will also be afforded for reviewing carefully the subjects usually taught in our public schools. Students pursuing the Classical Course can also study the same subjects. There is no extra charge for this instruction.

Those taking the degree of B. S. or A. B., on passing the required examination in the Normal Course, will be entitled to a Teacher's Diploma.

# SPECIAL REGULATIONS.

I. The requirements for admission to the several classes are fully stated in the outline of the different courses No candidate will be admitted whose deficiencies exceed what may be made up in one year by an additional recitation. Candidates for advanced standing must furnish satisfactory evidence of proficiency in all the previous studies of the course they propose to take. No student of known immoral character, or whose influence is likely to be injurious to good order, will be admitted.

II. The Statutes of the College, Chapter II, Section 3, provide that "No student shall be permitted to enter at a later period of the course than the commencement of the first session of the Senior year" The spirit of this law, in the judgment of the Faculty, requires at least one full year's attendance of a student on the exercises of the College in order to graduation. Under no circumstances will this rule, as thus interpreted, be relaxed while the above statute remains unrepealed.

III The Senate has adopted the following as an additional chapter to the College statutes:

"SECTION 1 All persons matriculating shall be regarded as students, and on payment of the required fees shall be entitled to all the privileges of the College.

"SEC. 2. Connection with the College is terminated by graduation or dismissal, honorable or otherwise.

"SEC. 3. The privileges of the student shall be suspended in all cases of failure to pay the required fees and attend on instruction; *provided*, however, that the following privileges, namely, that of examination with his classes, active membership in the societies, representing societies and classes on public performances, and the use of the Library and Reading Room, may be granted to students temporarily absent for a period not exceeding one year, on written permission from the Faculty and the payment of two dollars per term.

'SEC. 4. All persons enjoying any of the above privileges shall be subject to College discipline, the same as if in actual attendance."

The Faculty judge the attendance of a student on the exercises of the College at least three-fifths of any year as necessary to complete satisfactorily the work of that year, and, therefore, will not, under ordinary circumstances, grant leave of absence, with the privileges of examination without recitation, during any one year exceeding four months. No student should attempt to prepare for examination in more than two-fifths of the subjects of any year, without recitation. The Faculty are unwilling to grant leave of absence to any Senior. Seniors should be in attendance the entire year

IV. There are during the year public exhibitions of the College classes, as follows: Of the Junior class, in June; of the Freshman in January, and of the Sophomore in November. These exhibitions are held on such evenings and in such places as the Faculty may appoint.

V Reports are sent to parents and guardians at the close of each term. The President should be notified of every case where a report fails to come within ten days after the close of the term.

VI. The statutes expressly forbid students to use intoxicating drinks as a beverage, to play cards, to frequent drinking, gambling, or billiard saloons, or improper places of resort of any kind. The Faculty judge places of amusement, commonly called "*balls*" and "*dances*," to be improper places of resort for students.

VII. Ladies and gentlemen are admitted to all the privileges of the College on the same footing.

# ADDITIONAL INFORMATION.

## *LIBRARY.*

The Library contains about fifteen hundred volumes, selected expressly for the College. It is accessible to all the students The City Library and Reading Room is open to all the students free of charge.

T. D. Davis of Missouri, the purchase of a large variety of Corals, the donation by the Rev. J. C Nevin, of Canton, China, of his valuable collection of Chinese Curiosities, and by the contribution by Rev. Dr. Lansing, of Cairo, Egypt, of a cast of the famous Tanis Stone. These are all on a good footing, and afford to their members respectively the opportunity of improvement in the branches of learning for the promotion of which they are established.

## GOVERNMENT.

It is the aim of the Faculty to secure good order and diligence in study by the force of moral and religious principles, rather than by direct exercise of authority.
